

Max Impact “Stand”

Lyrics

Verse 1:

This flag we hold
So light in our hands
But heavy in our hearts
Our deep devotion to this cause
Is only the start

We will walk through fire and stand
our ground tested and true
Representing those who give their all
for the red, white, and blue

Chorus:

We will stand
We won't break
United in this brotherhood
No matter what it takes
We will serve
Do all we can
To honor those who've sacrificed
We vow to stand

Verse 2:

This oath we swear
Together as one
Divided we fall
We rise above
Our will is strong
We have answered the call

Chorus 2:

We will stand
We won't break
United in this brotherhood
No matter what it takes
We will serve
Do all we can
To honor those who've sacrificed
We vow to stand

Bridge:

Remember where we have been and
all that we've been through
For that is our inspiration in
everything we do

Outro Chorus:

We will stand
We won't break
United in this brotherhood
No matter what it takes
We will serve
Do all we can
To honor those who've sacrificed
We vow to stand
